

## **Introduction to the CA+P Policy Handbook**

This handbook contains the policies of the College of Architecture + Planning (CA+P). These policies are supplemental to university-wide regulations and should be interpreted consistent with those regulations. In cases of direct conflict, the university regulations control. Some of the policies are indicated as having been approved by the CA+P College Council; the remaining policies have been approved by other units of the college or the university with jurisdiction over those subject areas. To retain relevancy, it is intended that the contents of this handbook be updated, edited, and supplemented as needs arise.
